BUTLER ADDS TWO RACES TO HIS WINNING LIST

Captures Annapolis Stakes With Peh-Bles—Grat Takes Third Event at Laurel Bowle Bookles Hard Hit, LAUREL, MD. October 6.—James Butler added two more races to his winning list, making eight out of nine starts. To-day he captured the An-napolis stakes, one of the richest juvenile events of the papells stakes, one of the richest invenile events of the meeting, with his fleet two-year-old Pebbles, while his stablemate. High Noon, was second. At no time during the running of the race was either horse extended.

Despite the crushing impost of 125 pounds, Pebbles did not falter an inch, and handled the weight as easily as if it were a feather. The Quincy stable candidate, Double Eagle, was a greater Richmond College.

"The Midnight Girl."

From all accounts, "The Midnight Girl," which comes to the Academy of Music to-morrow for two performances, will prove to be one of the most attractive musical pieces of the season. It is said that the Shuberts have provided a cast of exceptional merit and a chorus conspicuous both for good looks and voices.

Besides plenty of music and comedy, it is understood that there is more than a little ginger to "The Midnight Girl."

FALLS FROM CAR

Miss Agnex Sullivan Is Hurried to Grace Hospital for Treatment.

Miss Agnex Sullivan, 308 East Clay Street, fell from an eastbound Oakwood and Broad car at Fourth and Broad Streets about 6:45 o'clock last night and suffered what surgeons believe to have been a slight concussion of the brain. Ambulance Surgeon Walker answered the call and found Miss Sullivan unconscious. She was immediately rushed to Grace Hospital. Surgeons at that hospital last night said that the injured woman had recovered conscipusness, and appeared to be slightly improved. They do not believe that the skull was fractured in the fall to the paved street, but are watching her condition closely, and will take an X-ray photograph of the head this morning.

The police had not been able to secure an explanation as to how the accident occurred last night, but it was said that Miss Sullivan slipped on the paving as she was alighting from the car.

Pulls Plows, Seeders, Harvesters, Mowers, Drills, Discs, and then grinds feed, was wood, or does any stationary belt work on the farm.

VERY BEST MATERIALS THROUGHOUT.

Every part is made of the material which engineering experience has found to be best suited for the purpose. In selling the Bull Tractor at \$395, we are allowed unficient price to enable us to furnish the best quality of material as well as the best of workmanship. The machine would be terined a bargain at \$400, but we want to make its price sensational as well as its real utility. We want to make it an object for every farmer to buy one. No farmer can afford to be without one at \$395, while equipped.

A PRICE COMPARISON.

A PRICE COMPARISON.

You cannot purchase a single-cylinder similarly rated gas engine mounted on ids at the price for the Buil Tractor. Even though you could do so, you would ed to have horses to drag it about the place, from sile to grinder, back to the sold pile, then to the shelier, so that as a self-propelled stationary power plant, it the best investment of the kind you can possibly make. We guarantee 'o deliver horsepower on belt work. The "Buil" is also guaranteed to de the taction work five good horses, and is easily capable of pulling two 14-inch stubble plows or Don't fail to see this tractor at the Fair.
